Welcome to 2023 IoT Forum

Excel in the IoT World at the 2023 IoT Forum: The Ultimate Blend of Business & Academia.

Prepare for the event of the year – the 2023 IoT Forum, an exceptional collaboration that harmoniously unites business and academia in the Internet of Things domain. Experience the remarkable fusion of the prestigious Latin America and Brazilian Congress on IoT (LABCIoT) and the esteemed Symposium on the Internet of Things (SIoT) as they join forces for the second time in an extraordinary and concurrent event.

Join the action from October 25 th to 27 th , 2023, at the International Diffusion Center of the University of São Paulo in the vibrant and enchanting city of São Paulo, Brazil. Delve into the city's rich cultural atmosphere and the bustling center of Brazil's industrial and scientific endeavors.

2023 LABCIoT: Propel your IoT business expertise by connecting with industry trailblazers, visionaries, and entrepreneurs in high-impact sessions that shape the future of IoT. Embrace new opportunities, discover innovative approaches, and stay ahead in the constantly evolving IoT landscape.

2023 SIoT: Navigate the forefront of IoT research through stimulating discussions led by renowned scholars and researchers. Gain invaluable insights from top researchers and scholars as they unveil the latest advancements in IoT technology. The 2023 SIoT is supported by FBlIoT, SBMicro, SBA, SBC, SBIAgro, SBRT, and EDS/IEEE.

The 2023 IoT Forum, delivered in a cutting-edge hybrid format, provides the ideal platform for networking, collaboration, and knowledge exchange across the entire IoT ecosystem. Unleash the true potential of IoT through this unparalleled blend of business and academia, forging the path to a more connected and efficient future.

Seize the opportunity to be part of this extraordinary event – submit your scientific contributions to 2023 SIoT, secure your spot, and immerse yourself in the wonders of São Paulo as you explore the future of IoT!
